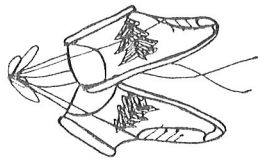
Dear Mr Weisberg,

I have read Whitewash I + II, Case open and Never Again. I want to encourage you to continue your life's work. Without it the doors of freedom would be closed to all of us.

I am a federal worker in the Department of Energy and possess a Masters in Public Administration and am appalled by the political machination of the FBI, Defense Department and Congress. One Day I hope to write a Thesis on the failures to pursue Truth Through Use of Independent Commissions and Congressional Committees. I hope your health is good and your life is sweet. Clay Ogilvie

P.S. are you with the bobs STILL in Frost?



Greetings of the Season
and best wishes for a
festive and joyful Holiday
Least weeks it a longer life.

Clay + Jan Ogilvie
Idaho Falls, ID
